

Testimonials

"Gabbert and Associates provide the best nursing summary, chronology and organization support in the business" **G. Michael Stewart, Chairman of Health Law Section for Godwin Pappas Langley and Ronquillo**

"We have used Gabbert & Associates extensively over the past six years in our medical malpractice practice to evaluate the medical records and aid in identifying potential issues and the underlying data as well as the supportive data substantiating the documented treatment and care. Their diligent and insightful work has enabled us to identify key underlying medical issues in our cases time and again to our advantage in mediation and trial. What's more, they have proven very responsive, timely and professional in the manner in which they have handled our growing number of cases." -- **Anonymous**

"I came from a firm with in-house nurse paralegals, so I was a little apprehensive with outsourcing at my new firm. My fears were quickly allayed. The notebooks and medical chronologies were produced quickly and accurately, and if I ever needed anything, such as extra copies of notebooks or medical research, they helped me as quickly as an in-house nurse paralegal could. I can't thank them enough for helping smooth my transition to the new firm." ~ Anonymous

"Gabbert & Associates makes my job so much easier! From the inception of a case through its trial they organize, analyze the medical records and always make themselves available for any assistance we might need." --- **Amy Mitchell-Hargrove, paralegal**

"Cindy and her staff are always thorough and responsive. I also appreciate their insight. Frequently they find and analyze issues that are helpful to our cases. They are a valued resource for our clients"
